Beginning of one of the most spectacular plays in the Punchard-Johnson game Thanksgiving day is shown in this photo as Bill Vickers (14) Punchard quarterback, is about to snare a fourth-down forward intended for the Johnson player, center, on the local's 10 yard stripe. Vickers turned and with some fine blocking by his teammates ran 90 yards to the visitors' end zone only to have the play nullified by defensive holding penalty against Punchard. Other Punchard players in the photo are: Art Schwarzenberg (3), at left; Ray Yancy (31) in deep center; and Al Wadman (36) at deep right.

School Budget May Jump \$40,000 Over 1953 Figure

Andover's growing school population and other factors that tend to increase school department expenses were discussed at a special meeting of the school committee held Nov. 24 to consider the

1954 budget. While still in the discussion stage no definite figure was reached but it is expected that the budget will run some \$40,000 or more above the 1953 appropriation of nearly half a million dollars.

No Salary Raise For Teachers At This Time

In view of the adjustments made in the teachers' salary schedule last year the school committee Tuesday night voted that no further adjustments be made at this time.

This action was taken on a request which Supt. Edward I. Erickson received last week from the Andover Teachers' association asking for an increase in the maximum salaries for those in the bachelor and master degree group, and a straight \$200 annual increase until the maximum is reached.

In presenting their request the teachers gave five reasons for seeking these increased increments; 1, to retain and attract desirable candidates for positions; 2, to guarantee teachers of long time service better retirement benefits; 3, to encourage professional improvement; 4, to better meet the increased cost of living; and 5, to better compensate for the increased work due to increased pupil load.

Santa Claus and his prancing reindeer have a date to visit Andover next Saturday afternoon.

According to advance word received by the Andover Board of trade, sponsors of his appearance here, he will be accompanied by a large number of his retinue, those strange characters who so ably assist him in his workshop as he is getting ready for Christmas.

His arrival will be the signal for a gala celebration which will be highlighted by a monster street parade through the business area of the town and the turning on of the Christmas street lights.

Santa's arrival is slated for 2 p.m. When he arrives he will be met by the Punchard Girls' band and a number of local merchants with representatives of several organizations which will have gaily decorated floats in line for the big parade.

The line of march will start from the parking space in the rear of the high school and will be to Bartlett, Morton, Main, Elm, Summer and Whittier streets and back to the school lot.

Headed by the band and a delegation of members of the board of trade, Santa will follow with a big bag of candy and other gifts donated by the local merchants. These he will toss out to the spectators gathered along the line of march.

Besides the candy Santa will also have a large number of small boxes each containing a valuable coupon redeemable in merchandise

(Continued from Page One)

at local stores. These will be distributed by Santa together with the candy.

In addition to the Santa float there will be three or four others entered by the Legasse Amusement company which is erecting the Christmas lights in the business area, and several others by local entrants. Last year some of the local floats were outstanding and evoked much favorable comment along the line of march.

The youngsters who witness this big parade will also have a chance to see some of the 60 or 70 helpers that Santa will bring with him. These grotesque figures with the strange looking heads and funny costumes assist Santa each year in making Christmas time a very joyous one for young and old alike.

The parade will start at 2 o'clock. After it has passed over the line of march the Christmas lights, which are being strung across Main street and the square this week, will be turned on at 4:30 o'clock, or earlier if dusk comes before this hour.

To add to the opening of Christmas festivities here the local merchants will have many of their windows decorated with seasonal things and will add their lights to the vari-colored bulbs that will glow each evening during the holiday season until the New Year.

A great number of local merchants are cooperating in the Christmas project this year and the gala street parade to be staged Saturday is expected to bring spectators from several surrounding communities to enjoy the annual festivities.

Wanted: Qualified Manager

A news item in the Wall Street Journal said, "The trend toward bigger stores has led to special college courses to fill the demand for people qualified to manage such operations." The paper then pointed out that Michigan State is now offering a course in food distribution, with special emphasis on supermarket management. Chains and other retailers are eager for the graduates.

This is indicative of the strides that retailing has made in the last generation. Running a successful store isn't just a matter of buying stock, adding on a profit, and then waiting hopefully for patronage. Retailing is one of the most competitive of all enterprises. It is entirely dependent on the tastes, desires and the changing whims of the consumer. The customer who is displeased or disappointed goes elsewhere next time, and usually his trade is permanently lost. Retailing thus offers almost endless opportunity for men and women who wish to make it a career — and have the necessary training and aptitudes.

Experience Is The Great Teacher

The way to get a bellyful of socialism is to live under it.

England is a perfect example. The classic attitude of the British Labor Party is that the state should own all important enterprise, and the Party went a long way in that direction before the voters threw it out of office. A short time ago the Party held its annual conference, with 3,000 delegates in attendance. Proposals to nationalize the land, arms plant, and the aircraft and machine tools industries were voted down. A typical comment came from a coal miner who said, "A boss is a boss, no matter whether he gets the job from the state of private owners. Sometimes the bosses of private industry are more reasonable to deal with."

The British people are lucky, in that they can speak their minds and vote. The other victims of communism and socialism aren't so fortunate. Nothing short of war or revolution can unseat their oppressors.

OVERDUE BABIES

by Science Features

Expectant mothers often worry when the baby is not born on the date predicted by the family doctor. Is the baby getting too large for a normal delivery? Will labor be more severe? Is there something wrong with the baby?

The answer to all these questions is no, according to a survey conducted by Dr. Robert E. Lartz of the Sharon, Pa., General Hospital. Dr. Lartz studied 71 overdue babies — several of which were as much as 45 days late in arriving. Here is what he found:

Only nine of the overdue babies were considered to be large (weighing nine pounds or more). All but two of these were delivered spontaneously. The rest were "normal" in every sense of the word.

Dr. Lartz concludes that post-maturity — an overdue baby — "is not a dangerous complication, does not produce excessively large babies, does not lead to an increase in the average length of labor, and is not an indication for a Caesarean section."

So it seems that the best thing an expectant mother can do when her child is late in arriving is to wait with confidence and as much patience as she can muster.

L. A. Belknap and family are at the Copley Square hotel, Boston, where they will spend the winter.

H. F. Chase was a very successful exhibitor at the Brockton poultry show last week. He secured 4 firsts, 4 seconds, 2 thirds, and a silver cup for the best 10 birds in class in the show.

All lovers of fancy poultry will attend the poultry show at the Lawrence city hall next week.

Deer have been seen in West Andover during the past week in the vicinity of Haggett's pond. Sportsmen are reminded that a fine of \$100 can be imposed for destroying them.

Last week while skating in West Andover Miss Annie Bayle fell and sprained her ankle.

Lawrence faces danger of water famine next winter. There is little water in the river and there has been so little rain indications are that the river will fall rapidly. There is already four inches of ice on the filter bed and if the weather continues cold all the water in the filter will freeze. To meet this emergency the water board has decided to purchase an auxiliary pump to pump water from the river to the filter bed. Since the city government refused an appropriation for the new filter, members of the water board feel that the responsibility for any disaster that may come will be upon the shoulders of the city government members who opposed the appropriation.

Burton S. Flagg, president, presided at a meeting of the Andover Guild which was held for the purpose of creating more enthusiasm among the boys and girls of the town. He announced that classes would be formed for children in three age groups and prizes awarded for competition.

The Rev. Charles M. Driscoll, O.S.A., will close his pastorate at St. Augustine's church to take charge of St. Lawrence's parish in Lawrence. He came here in September, 1902, and since then has drawn about him a large circle of friends who deeply regret his departure.

Many citizens at hearing before selectmen vigorously opposed the petition of the N.E. Tel. & Tel. Co., for location of poles and wires on Elm street from Maple avenue to Walnut avenue. The selectmen reserved their decision.

Punchard defeated Stoneham 12-0 before a crowd of 2000 Thanksgiving morning. Feature of the game was Punchard's first-half goal line stand on its 1-yard line where in four attempts Stoneham failed to advance the ball. Punchard went on to score two touchdowns in the second half.

On a soggy field Saturday Punchard and Methuen battled through an afternoon of hard football with Punchard winning 7-0.

FAMILY LIFE FILMS FOR LIBRARY PREVIEW

Marriage and family life films have been selected by the Film Council of America for the third subject in the series of programs offered by the Memorial Hall library to local groups and organizations.

Each film is directly related in some way to the subject, covering such situations as juvenile delinquency, love, adolescence, retirement, food problems of children. One or more representatives of each group may attend the program to evaluate the films for use with the group. The entire program should run for an hour and a quarter. Three showings are planned, and if necessary, others could be arranged; Wednesday, Dec. 9, at 3:30 p.m. and 7:45 p.m., and Thursday, Dec. 10, at 7:45 p.m.

Organization presidents are urged to remind their representatives of the dates.

What Our Readers Say —

WANTS CHRIST IN CHRISTMAS

Editor of The Townsman:
May I ask your cooperation in the publication of the enclosed letter, copy of which has been sent to the respective chairmen of the Board of Trade and the Boosters' club? I have watched each year for some indication of a move in this direction, but have been disappointed. I would be interested in learning if such a suggestion would be popular with other residents of Andover.

Yours very truly,

Irene H. McCarthy

The letter to the board of trade and the Boosters club is as follows:
Gentlemen:

I have read with interest the reports of the proposed Christmas decorations for our main thoroughfare, but am disappointed again this year to see no mention of the erection of a replica of The Nativity.

The aims and spirit of the responsible organizations are laudable and to be highly commended, but should we exclude any tangible display of the event that is the source of all the celebration?

It is respectfully suggested that a united donation from the parishioners of our respective churches be used for the purchase of a crèche, or Nativity tableau, to be placed in a conspicuous spot of the town. Such a spot might be in front of the former Shaw property at the municipal parking lot, or in the square near the Christmas tree. Such a display would make Andover doubly attractive even after the commercial phase of the decorations is over on Christmas eve. We would then be putting Christ back into Christmas.

Sincerely,

Irene H. McCarthy

Punchard Defeats Johnson 19-7 In Annual Grid Battle

Punchard high closed its 1953 season with a hard-fought 19-7 victory over Johnson high of North Andover before a crowd of 2000 at the local playstead Thanksgiving morning.

The game was stubbornly contested all the way and it was not until the final two minutes of play that the Blue Devils, leading only by a 13-7 score, tallied the third touchdown and really clinched the game.

The invading forces paid little attention to the pre-game record that favored the home team as the eleven that Coach George Lee fielded gave their followers much to cheer about as they held Punchard to a fairly small score.

The Blue Devils romped away to the Johnson 30-yard stripe in the first few minutes of play but the North Andover team held and started an offensive of its own. They moved into Punchard territory before being halted and Turner kicked to the Punchard 13.

Punchard opened up again and started a drive that ended in the second period with Whitley scoring a touchdown from the 5. Whitley, Yancy and Wadman alternated in moving the ball during this drive.

Punchard's offensive looked impressive in the first half, making 10 first downs and covering 143 yards.

Early in the third period the Blue Devils got on the march again and advanced the ball to the Johnson 7 when Whitley, on a 23 yard jaunt, fumbled but the officials ruled the ball "dead" before Knightly recovered it in the Johnson end zone. Whitley then went over for the second Punchard touchdown.

Johnson came back with a surge that drove 52 yards to the local 31 where they were halted and there was no further scoring in this period.

After an Adams kick in the fourth Johnson whirled back and with three successive first downs

planted the ball on the local's 12. Here the attack stalled on a fourth-pass Bill Vickers intercepted at the 10 and raced down the sideline to the Johnson end zone, only to have the brilliant 90-yard run nullified by a holding penalty on Punchard.

Later in the period Adams kicked to the invaders 20 and a fumble in the Johnson backfield was recovered by Art Schwarzenberg. The Blue Devils got rolling again from this point and finally Whitley went over from the 5 with only two minutes left to play.

Several penalties were called against Punchard, mostly in the second half. Six of them were 15-yards, and all told they lost a total of 120 yards through penalties while Johnson lost only five.

The summary:
Punchard — Ends: Dyer, Lynch, Durant, McCullom, Dwyer, McCarthy. tackles: Luminello, Hesse, Baer, Sharpe, Williams, Henrich. guards: Clegg, Cole, Davis, Muise, Babbitt, Spinney. centers: Ostrowski, Dalton, Thompson. quarter-

backs: Adams, Vickers, halfbacks: Wadman, Yancy, Art Schwarzenberg, Al Schwarzenberg, fullback: Whitley, Stefani, Carver.

Johnson — Ends: Currier, Lawson, Smith, tackles: Cross, Carlson, Harris, guards: Lynch, Wilson, Hutchins, centers: Fountain, Hillen, Hollins, quarterbacks: Long, Hallsworth; halfbacks: Turner, Knightly, Hamilton, Wats. fullbacks: Acciard, Kennedy.

Score by periods: 1 2 3 4
Punchard 0 7 6 6-19
Johnson 0 0 0 7-7

Touchdowns — Whitley 3, Acciard 1. Point after touchdown — Whitley, Acciard, Referee, Frank Meegan; umpire Bob Whitelaw; head linesman, Jere Pugliuca; field judge, Tom McNamara. Time Four 11s.

In the battle of statistics the Blue Devils had a big edge over their holiday rivals. Punchard made 15 first downs to Johnson's 9, picked up 254 yards rushing to their rivals' 78 and covered 51 yards through the aid to none for Johnson, by completing two of seven passes while the North Andover boys did not complete any of 11.

HE IS YOUR BOSS — everybody's boss. He has the biggest say in whether or not you take home a fat pay envelope.

Who is he? The *consumer* — the person who buys, or does *not* buy, the product you have a part in making. If he thinks the product of your company is better than that of any competitor, and if he can get it at an attractive price, he'll buy it; your company will prosper; and there'll be more money for the wages and salaries of your company's employees.

If he can get a superior product elsewhere, or get it cheaper, of course he'll buy *that*.

NEW BOOKS

In The Name Of Science, Gardner.
A careful examination of the small groups of men propounding theories of their own, though widely at variance with accepted scientific fact. Just as Cyrus Teed believed that the world was round but that we were on the inside of the sphere, so others have argued for such things as medical fads, food theories, hoaxes, including the "Moon Hoax" of the New York Sun in 1835, the men from Mars broadcast and flying saucer stories. All fields of science have been involved, and Martin Gardner, author on scientific subjects, believes that these theories and cults constitute a real danger.

Heresy, Yes - Conspiracy, No, Hook.

"Heresy is a set of unpopular ideas or opinions on matters of grave concern to the community. Conspiracy, as distinct from heresy, is a secret or underground movement which seeks to attain its end not by normal political or educational processes but by playing outside of the rules of the game." And our democracy must defend the right of heresy even while it moves to expose and destroy conspiracy. This book by Sidney Hook defines academic freedom, problems created by members of Communist party, Ku Klux

Klan, etc. Important and worthwhile reading.

The American Family in the 20th Century, Sirjamaki.

An interpretation by a Yale Sociologist of the findings of social sciences about the American family, the basic unit in American society. He traces its changes with the changing times and views it from all angles, both today and tomorrow.

The Waking, Roethke.

Best poems of Theodore Roethke selected for this book, including some long out of print as well as a group of new ones which show the poet's development.

Who Killed Kenya? Wills.

From a country of primitive tribes and warring people, Kenya became a peaceful, progressive place for a short time, but now is a hotbed of suspicion and misunderstanding between blacks and whites. Author asks why, and proceeds to give the answer the question "what will return Africa to health?" Colin Wills is Australian.

A Woman As Great As The World, and other fables, Hawkes.

Although Jacquetta Hawkes was trained as an archaeologist and anthropologist, she is a poet at heart as she proves in this series of eighteen brief, meaty and wise parables - the meaning of which is very evident to a world which is fast forgetting the primitive and simple techniques of living the good life.

Roger Williams, Miller.

Part of a new series "Makers Of The American Tradition", this study of Roger Williams' own writings and the commentaries and interpretations of his thinking as put down by students of the man and his beliefs, was prepared to set readers straight about many confused issues involving one of our first prophets of religious liberty in this country.

Manual Of Engineering Drawing, French.

New eighth edition of this classic for students and draftsmen, revised and modernized.

Disapprove Utility Pole Locations

Two petitions of the Lawrence Electric company for utility installations on York street in Shawshen Village were denied by a vote of the selectmen at Monday night's regular meeting. Both petitions had been rejected originally at a meeting held Sept. 21.

One of the petitions was for the location of five poles on the easterly side of the street from a point approximately 301 feet from Haverhill street.

The other was for two ducts from an existing manhole on the westerly side of the street at a point approximately 294 feet from Haverhill street.

At the former meeting there was opposition to both petitions from a group of residents on the street.

A joint pole location was granted the N.E. Tel. & Tel. Co., and the Lawrence Electric company for an existing pole on the southerly side of School street, about 300 feet westerly from Locke street.

Also granted was a joint petition by the same companies for two poles on the northerly side of Judson road about 98 and 209 feet easterly from Bartlet st.

SCHOOL BUDGET MAY JUMP \$40,000

(Continued from Page One)

The committee again considered the budget last Tuesday night and it is possible that it will take one or two more meetings before a final figure for 1954 is reached.

In their discussions of the budget the committee considered additional expenses incurred the year largely in books, supplies, power and light which will make necessary for the board to ask the finance committee for a transfer of additional funds to complete the present year.

The increased enrollment each year means additional books and supplies as well as an added number of replacements, all of which have increased in price in recent years.

At Tuesday night's meeting the board voted to increase tuition rates for out-of-town pupils effective Jan. 1, 1954. The rate for those in the kindergarten to the sixth grade will be increased from \$100 to \$175, and for those from the seventh to 12th grade \$190 to \$250. Andover in recent years has been lower than several neighboring communities in tuition rates.

Michael Mullaney of Clark rd., Ballardvale, was appointed part-time custodian of the Bradlee school at a salary of \$25 a week.

Miriam Putnam, librarian of the Memorial Hall library, discussed with the committee a plan for the library and school department to join forces in providing better library service at the schools which would provide the children with wider reading and also have various books of reference immediately at hand when needed. With the school department providing the books the plan suggested by Miss Putnam would find the library providing a librarian for this work. The matter was taken under consideration.

At the suggestion of Supt. Edward I. Erickson it was voted to call for bids on the annual school report and limit it to approximately 40 pages. The report for 1952 contained 71 printed pages and eight pages of photographs, mostly of the new school buildings.

At the Nov. 24 meeting Sidney F. White appeared before the committee and advocated the use of milk cooler at the Shawshen school which would go along with the cafeteria service which is now in operation from the West school. This was taken under advisement.

POSTMASTER URGES EARLY YULE MAILING

(Continued from Page One)

be posted by Dec. 12 for out-of-town delivery, and at least a week before Christmas for local addresses.

Postmaster Boland points out that unless these mailing dates are observed, there's a danger of incoming mail slowing up the outgoing operation. Commercial shipments are another hazard that may prevent delivery before Dec. 25.

Canceled machines are now registering about 10,000 pieces of mail per day. Once the big rush begins, they will average 50,000 daily clicks. So the postmaster urges everyone to:

"Finish mailing those Christmas gifts right away. The sooner the better. And remember, at this time of year, every package should be wrapped as securely as if it were going overseas.

Size and weight limitations now in effect vary according to destination. Ask about them when you visit the post office to buy stamps."

In some zones, for example, parcel post may not exceed 72 inches in length and girth combined and 40 pounds in weight. While in others the combined length and girth may be 100 inches and the weight up to 70 pounds.

"The important thing to remember about Christmas cards," says the postmaster, "is to send them by first-class mail, and place your return address on the envelope."

With a three-cent stamp, your Christmas cards will be forwarded if the addressee has moved, and a new address is on file, or returned if the addressee cannot be located.

Christmas cards mailed first-class also may carry written messages, a popular Yuletide custom.

What's more, Christmas card en-

velopes smaller than 2 1/4" by 4" or larger than 9" by 12" must carry three-cent stamps. For they require special treatment.

"Delivery of Christmas cards can be simplified for us and speeded up for you," the postmaster concluded. "Just tie them in two separate bundles, with the addresses facing one way.

"Then attach the special labels that indicate 'all for local delivery' and 'all for out-of-town delivery.' These helpful tags can be picked up at the post office merely for the asking, and will be available throughout the holiday season."

BEST TRADE-IN ON A NEW FORD!

Your car is depreciating in value as it gets older... we can give you the best possible price for it NOW! Here's

why: Our Fords are selling faster than ever! Naturally we want to keep this rapid turnover going—but we need more used cars to do it! And that's where the high price comes in—for you!

Here's where you get the most for your money!

FORD BRINGS YOU EVERYTHING (AND WE MEAN EVERYTHING) YOU'VE EVER
WANTED IN A CAR, AT A PRICE THAT'S WELL WITHIN YOUR REACH!

Ford offers you the Mileage Maker Six—with Overdrive this year's Economy Sweepstakes winner. And only Ford in its field brings you Center-Fill Fueling that permits easier "filling up" from either side, suspended pedals that eliminate floor holes, foam-rubber cushions front and rear in all models, and a new "automatic ride" which reduces road shock in the front end alone up to 80%! And according to recent used car surveys, a year old Ford returns a higher proportion of its original cost when sold than any other car at any price!
